Work experience

Since September 2017 until today, I am employed at the company "Zesium mobile doo" from Novi Sad, in the position of QA Analyst, where I work on testing mobile Android and IOS applications, and testing of web applications.

During 2017, I have had completed an internship at the company "SIXSENTIX d.o.o." from Novi Sad, in which I had practical work at the position of QA Test Consultant, where I worked on testing software products using Tosca Testsuite tools.

During 2015, I have had completed an internship in the public company for distribution of electricity "Elektrovojvodina d.o.o." Novi Sad, in which I had practical work on the multiple jobs in sector for informatics and telecommunications.

Also I have had participate in making of numerous papers in the field of the profession (statistics, analysis, computer programming) during the study, both in terms of individual works as well as within a team.

Education

I have completed the master academic studies at the Faculty of Technical Sciences in the city of Novi Sad, Department of **Energy, Electronics and Telecommunications**, study program: **Telecommunication systems**, acquiring the title: MASTER IN ELECTRICAL AND COMPUTER ENGINEERING, with a grade point average of 9.60.

I have completed the master academic studies at the Faculty of Technical Sciences in the city of Novi Sad, scientific field: **Traffic Engineering**, study program: **Postal traffic and telecommunications**, acquiring the title: MASTER IN TRAFFIC ENGINEERING, with a grade point average of 9.60.

I have completed the first degree undergraduate academic studies at the Faculty of Technical Sciences in the city of Novi Sad, scientific field: **Traffic Engineering**, study program: **Postal traffic and telecommunications**, acquiring title: BACHELOR WITH HONOURS IN TRAFFIC ENGINEERING, with a GPA of 8,56.

Secondary school qualifications I gained in Technical High School: "Milenko Brzak – Uca", in the city of Ruma, qualified for the profession: **"Electrician of automation"**.

Additional qualifications

Since October 2017 I have been attending a course for Java programmers at the private University Metropolitan in Belgrade.

During 2017, I attended and completed training for testers in **Tosca TestSuite** tool for automated testing of software in company Sixsentix d.o.o.

During 2016, I have finished a training for **Java web development** at *Center for education in area of information and communication technologies Aleph ICT*. During that course, I have used several technologies in web development, such as: SQL database, JUnit, Angular.js. By finishing that course I have become capable to develop web application on Java platform.

Beside of that:

- I gained a certificate of qualification **Front-End Developer**, for working with **HTML, CSS, JavaScript** and **jQuery** programming languages,
- I've mastered the basics of working with programming languages: **Java, C++, Python**,
- I have experience in working with working environments: **NetBeans, Android Studio, Code::Blocks, Eclipse and PyCharm**,
